

Re: Farmland Application

Dear Applicant:

I have received your application for farmland assessment for the year . After reviewing it and the property I am denying it for the following reasons:

Not actively devoted to agricultural or horticultural use for at least the 2 successive years preceding the tax year for which "farmland assessment" is requested.

The land area actively devoted to agricultural or horticultural use exclusive of improvements and the land that supports them is less than 5 acres.

Gross sales, fees, or payments is less than the statutory requirements.

Application was not timely filed.

Woodland management plan not submitted

Scaled map of the land showing the location of woodland activity and the soil group classes of the land not submitted

Completed Woodland Data form (WD-1) approved by a State Forester not submitted.

Other:

If you disagree with the decision, an appeal may be filed with the County Board of Taxation prior to April 1. Forms and instructions for filing an appeal may be obtained by contacting the Board at:

If you have any questions please do not hesitate to contact me.

Very truly yours,
